Subject: RE: Permitting for US-Side Diversion of TJ River

Hello all. Thanks for agreeing to participate in tomorrow's meeting. The purpose will be to discuss permitting requirements, etc, that would be required to pursue the various alternatives (see pp. 41-49) for U.S.-side treatment/disposal/reuse options of Tijuana effluent.

I thought that we would first run through the various options being proposed by the consultant, determine which, if any, make sense, and then discuss the regulatory requirements that would be associated with them.

Melissa, can you create a call-in number? Thanks, Doug

Douglas Liden
Environmental Engineer
USEPA San Diego Border Office

Subject: Permitting for US-Side Diversion of TJ River
When: Wednesday, September 19, 2018 3:00 PM-5:00 PM (UTC-08:00) Pacific Time (US & Canada).
Where: San Diego Water Board Office (Library)

Based on the Doodle Poll responses so far, 3-5pm on September 19 is the only time/date that works for everybody. Laurie and Cynthia have not filled out the poll yet but based on their Outlook calendars, I believe they are available then as well. Some of our staff leaves at 4pm so we would appreciate being able to cover matters pertaining to their programs first.

Doug, a few questions for you:

1. Do you plan to prepare an agenda?
2. Do you need a teleconference line?
3. If this date/time does not work for all the USEPA staff that need to participate, can you please send out an appointment for another date/time by COB Friday? If you do, I will then cancel this one.

Thanks,
Melissa
